

# 17 Indoor/Outdoor Galleries

**#1 The Entry Plaza**  
A welcoming orientation area large enough to accommodate 200 people in a shaded amphitheater that offers the first bird's-eye view of the garden.

**#2 Living Cycles** is all about change and the circle of life, from changing seasons to a plant's spouting and ultimate decomposition.

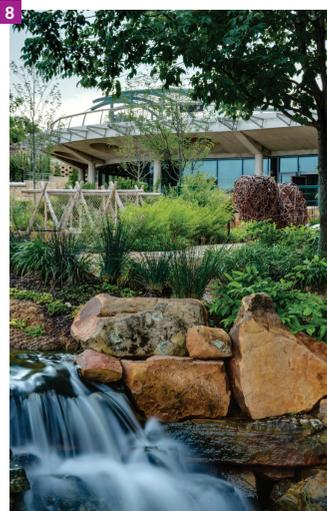

**#3 The Skywalk** is an elevated walk through the tree canopy in the heart of the Children's Adventure Garden. It's where visitors discover the benefits of trees and those who live in the tree tops.

**#4 The Oasis** is a rooftop garden with programming that changes with the horticultural display.

**#5 First Adventure** is a walled garden filled with enchanting features that are for our youngest visitors.

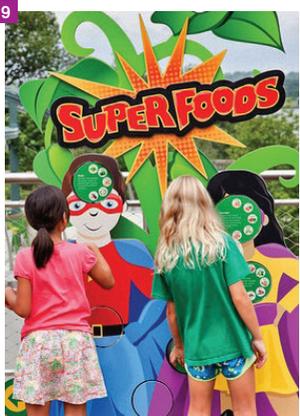

**#6 The Exploration Center** is a gallery that employs innovative exhibits and interactive technology to engage children in all aspects of life and earth science exploration.

**#7 Texas Native Wetlands** is an ecosystem experience that features floating bridges, boardwalks through grass tunnels and a secluded wildlife blind where children can discover the adaptations of plants and animals to living in a wetland environment.

**#8 Habitats** is where children learn about the interconnections among people, plants and animals.

**#9 Incredible Edible Garden** teaches urban children that our food comes from plants.

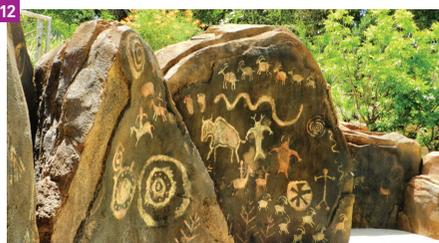

**#10 Pure Energy** is where children investigate how wind, sun and water are transformed into energy.

**#11 Kaleidoscope** integrates science, math, art and architecture in a world of patterns, shapes and structures.

**#12 The Petroglyph Walk** inspired by Native Americans, features large rocks with symbols depicting the messages used by ancient Americans to communicate.

**#13 Earth Cycles** is where children actively explore a cave, rock and water cycles, a weather station, fossils and the solar system.

**#14 Plants Are Alive** gives young children an inside look at the life of plants, and helps them explore and discover how plants live and grow.

**#15 Amazing Secret Garden** is a maze with engaging rewards along the way in order to find the secret garden.

**#16 Orchard & Vineyard** is a beautiful extension of the Incredible Edible Garden, teaching that food also comes from trees, shrubs and vines.

**#17 Walk on the Wild Side** is a trail that includes switchbacks with tracks in the path along the way to help visitors guess which native animal or plant is hiding around the next turn.
